Nehalem Bay Health Center follows Oregon law (ORS 109.640, 109.675) which permits minors age 15 and older to consent to medical and dental care, and minors 14 and older to consent to outpatient mental health or substance use treatment without a parent or guardian. Minors at any age may sign their own consent to access reproductive health services. While we encourage parental involvement and may notify parents when clinically appropriate (ORS 109.650, 109.680), we also ensure that student health records remain confidential and are only shared with school staff as permitted by law or with specific written authorization.

This Authorization to Release Medical Records is required to be signed by the patient or parent/guardian before medical records are released except, as may be required by law. A student/patient who can legally consent to her/his/their own treatment is authorized to sign this Release. A student/patient who is a minor and requires parental consent to treatment must have the signature of the parent/guardian to authorize release of medical records.
